

JPMorgan Chase & Co,

Dear Hiring Manager,

I am writing in regards to the software intern position at JMPC. I am confident that I have the skills and experience needed for this role. I am confident that my educational background and experience make me an excellent candidate for this position.

Currently, I am pursuing my Bachelor's degree in Computer Science and Business Systems from Thapar University, where I have gained experience in programming languages such as PYTHON, C++/C, and HTML/CSS. I am confident in my ability to use these languages to create software that is efficient and user-friendly. In addition, I have good problem-solving skills and I am able to work independently along with proficiency in business strategies. Additionally, my coursework has provided me with the necessary knowledge to understand the integration of computer science into the business world, and how technology can be utilized to create value.

As an aspiring professional, I am eager to gain hands-on experience in a professional work environment, which will complement my academic experience. I am confident that an internship with JMP Corporation would provide me with a comprehensive understanding of the industry, and a chance to apply my skills to real-world problems.

I am excited about the possibility of interning at JMPC. I believe that this position would give me the opportunity to learn new skills and gain valuable experience. I am committed to working hard and I am confident that I would be an asset to your team. I believe this project showcased my ability to work independently, work under tight deadlines, and pay attention to details.

I am thrilled to contribute to the JMP Corporation team and believe that my skills and passion for the industry align with the company's values. I look forward to discussing how I can add value to your team.

Thank you for considering my application. I am available for an interview at your earliest convenience.

Sincerely,

Yashvin Goyal
